"The Melbourne Guitar Quartet are a brilliant addition to Australia's musical landscape. Their combination of innovative arrangements and superb ensemble playing is a joy to listen to. This is exactly what the classical guitar world needs."

Slava Grigoryan - *Famed Classical Guitar Virtuoso & Director of the Adelaide International Guitar Festival*

"Melbourne Guitar Quartet gives a fresh interpretation (of Omphalo Centric Lecture), rhythmic vitality and a groove that would put many percussion ensembles to shame."

Nigel Westlake - *Preeminent Australian Composer*

"...I would never have imagined that Omphalo could work so well in this context, and it is testament to the MGQ's perseverance, attention to detail and technical excellence that this performance sings with all the energy & joy that was the inspiration behind the original composition almost 30 years ago."

Nigel Westlake June 2010

"The Melbourne Guitar Quartet does not just shine as four very talented musicians, but dazzle as an ensemble that is greater than its parts. Our students were not only thrilled by the level of musicianship, but also completely engaged by their seminar that ranged from the Baroque to contemporary Australian works. Highly recommended."

Lindsay Brunston - *Genazzano FCJ College*
